Projects

FanScoop - *1st Place SacHacks I: Best Use of Here.com API* https://github.com/jawang94/FanScoop
- **Implemented an application** that allows Kings fans to carpool to venues during game-time, fostering fan spirit, increasing revenue for the organization, and cutting down on carbon emissions
- **Utilized React Native** to deliver a modern, seamless, and engaging user experience
- **Utilized StyleSheets and Flexbox** to create an aesthetically pleasing and professional product

Munch Wheel - *UX/UI Food App* https://github.com/jawang94/Munch-Wheel
- **Developed an interactive food application** that enables users to find and navigate to a personalized dining result
- **Integrated Google Maps API and Yelp API** to provide a up to date and accurate results
- **Utilized SVG: Scalable Vector Graphics and CSS** to create an animated and aesthetically pleasing application

Blast - *Modern Forum Implementation of Socket.io* https://github.com/jawang94/BLAST
- **Developed a social media and news aggregation forum** with socketed threads that serve as unique chat rooms
- **Utilized Socket.io** to create a seamless experience unique to each individual thread that is created
- **Created all services, components, and methods** for the handling of data between the client and server

Technical Skills

Programming/Languages: Javascript (Strong), Java (Prior Experience),
Python (Prior Experience), HTML, CSS, SQL, NoSQL
Programming/Frameworks: Angular (MEAN), React, Flask, Django, Spring
Database Management: MySQL Workbench and MongoDB
Development & IDE Tools: Visual Studio Code, IntelliJ, Spring Tools Suite

Experience

Eastside Tennis Center - *Assistant Director, 05/2016 - 09/2017*
- **Directed all aspects of center operations,** notably the Adult Program which grew by ~20% and the Junior Program which grew by ~10% during my tenure
- **Provided technical and strategic coaching** for both adults and juniors of which many were ranked in the Top 100 regionally and/or nationally
- **Played a critical role in the organization and execution of the Club Banquet and Raffle** which generated the club ~$1.2 million in revenue annually
- **Directed Regional Sanctioned USTA Tournaments** for both Advanced and Standard levels

Education

Purdue University - *Bachelor of Science, Information Technology: Cloud Computing and Solutions, Enrolled*
- **Enrolled in Purdue Global's Part-Time Excel track,** providing me with a flexible and low impact commitment yet excellent continuing education.
- **Course Highlights:** Evaluating cloud computing trends, recognizing best practices, and analyzing and evaluating cloud providers and cloud solutions.

Coding Dojo - *Certificate of Authentication, Full Stack Web Development, 09/18 - 12/18, Graduated*
- **3x Black Belt Honors Graduate at Coding Dojo Bellevue** where I learned the fundamentals of web and mobile development before progressing further into advanced frameworks, techniques, and practices.

Drexel University - *Bachelor of Science, Registered Nursing/International Business, 09/2012-08/2016, Attended*
